Ceremony
By Leslie Marmon Silko

A story of the soul of America's Native American past, this novel of the American West that became the classic "The House of the Academy of the Dead" that led the classic "The House of the Dead" in historical commentary. And the third is that of personal reminiscence, my own voice. There is a turning and returning of myth, history, and memoir throughout, a narrative wheel that is as sacred as language itself.”--from the new Preface

The stolen land will eat their hearts – Leslie Marmon Silko's Ceremony from an environmental perspective

Tayo’s self-destructive behaviour and his problem of alienation. Therefore I will have to ponder on the following question: How can I lead a stable and productive life? In the final comment there will be a concluding assessment and a summary of the theme.

Caught between two worlds. Identity in Leslie Marmon Silko’s "Ceremony"

A veteran of Native American literature, Leslie Marmon Silko's latest book, "The Almanac of the Dead," is a powerful, heart-wrenching work that explores the legacy of trauma and the search for healing in the face of adversity.

The Almanac of the Dead

This strident, plaintive book introduces a major new voice in contemporary literature. Layli Long Soldier has created a brilliantly innovative text to examine the experiences of Native American women in the wake of the Indian Reservations Act of 1898.

I must work, I must eat, I must art, I must mother, I must friend, I must listen, I must observe, constantly I must live. This self-portrait of a Native American woman is a bold and moving testament to the indomitable spirit of a people who have endured centuries of suffering and oppression.

These essays variously and insightfully illuminate the work and life of a remarkable Native writer in the twenty-first century. Leslie Marmon Silko is the author of more than twenty books, including the novel "Ceremony," the novel "Almanac of the Dead," and the memoir "The Turquoise Ledge.
